SHOHEL AND BROTHERS PTE LTD.

COMPANY PROFILE :

We the **Shohel and Brothers** established in 1965 as a trading concern in the commercial capital and port city Chittagong and consequently in Dhaka by our grandfather with a vision to satisfy the customers in the industrial sector in Bangladesh. We have inherited this business from our Grand Father to our father. We are the third generation running this business with fame and goodwill.

Our company has a concrete history of maintaining long-term relationships with our clients. We strongly emphasize communication with the client and within the project team, involve key senior staff at all the project stages, and emphasize the importance of producing a project that meets the need and purpose as defined by our client. We are continually reviewing our procedures and performance in order to provide maximum client satisfaction and staff effectiveness.

CORE BUSINESS :

1. Authorized Distributor of Pumps, Valves, Industrial Hardware, Tools and Sanitary Goods.

- a) Pumps (Grundfos, Denmark)
- b) Valves (ARI-Armaturen, Germany)
- c) Valves and Actuator (KITZ Corporation, Japan)
- d) Boilers (BBS, Germany)
- e) Inverters (Danfoss, Denmark)
- f) Pressure and Temperature Measurement (WIKA, Germany)
- g) Fluid Control System (Burkert, Germany)
- h) Flow and Level Instrument (Yokogawa, Japan)
- i) Valsteam - ADCA, Pharma, Food, Chemical & Cosmetic (Portugal)
- j) Keyvalve High Temperature and Wear Resistance (Hong kong)
- k) Gas Pressure Regulation (Medenus, Germany)
- l) Rotating Technology (Deublin, USA)

2. Project implementation by strong and dedicated engineering team involving in *design, fabrication, installation, commissioning, troubleshooting and maintenance.*

COMPANY VISION :

We are inspired to build a company where "People" come together to share their dreams and create wealth by putting together their undivided efforts and talents.

Together moving towards building-up a world class company in the field of Electro-Mechanical engineering through continuous improvement in *Technology, Quality, Services and Delivery.*

Authorised Distributors of :

PRODUCTS

Process Utilities :

Boilers (BBS)
Pumps (Grundfos)
Valves (ARI, KITZ)
Measuring Equipments (WIKA)
Automation (Burkert)
Rotating Technology (Deublin)
Pipes (Seamless, ERW, SS & CS)
Fittings (SS,CS)

Water Utilities :

SS Pipes
G.I. Pipes
G.I. Fittings
Gate Valves
Butterfly Valves
Ball Valves
Water pumps
Other equipments

Steam Utilities :

M.S Pipes
M.S. Fittings
Steam Valves
Strainers
Pressure reducing Valves
Steam Traps
Non Return Valves
Other Equipments

Pneumatic Utilities :

Filter regulator Lubricator Unit (FRL unit)
Solenoid Valves
Flow control Valves
Cylinder
Pressure gauge
Tubes & Fittings
Actuator
Sensor
Process Valves
Industrial Filter
Instrumentation instruments

Authorised Distributors of :

BBS GmbH

The Experts in Industrial **Boiler** Plants and Heat Engineering

In order to meet the different needs of our customers, we offer a very wide range of systems and components for generating of steam and process heat. The output range of our steam, hot water and thermal oil boilers ranges from approx. 300 kg/hr of a steam generator to 35,000 kg/hr by steam boiler.

We also offer the entire spectrum of high temperature systems based on the thermal oil heaters. With the help of this technology, using organic and synthetic heat carriers, the process heat can be generated with temperatures up to 400 °C.

OUR PRODUCT RANGE INCLUDES THE FOLLOWING PRODUCT GROUPS:

- » Steam boilers
- » Hot water boilers
- » Thermal oil Heaters
- » Waste Heat Boilers
- » Electrically heated boiler systems
- » Pure steam generators
- » Container boiler systems
- » Biomass firing
- » Boiler Economizer
- » Plants & Apparats

100 %
MADE IN GERMANY

Authorised Distributor of:

SHOHEL AND BROTHERS PTE LTD.

www.shohelandbrothers.com

STEAM BOILER

- » **Steam output 0,1-35,0 t/h**
- » **Low Pressure/High Pressure Version**
- » **Fuel: Oil/Gas/Solid fuels/Electric**

HDK/HDK-M High Pressure Steam Boiler

- **Three-pass design**, for the production of saturated and overheated steam **by using superheaters**
- HDK-M steam generator in marine version
- permissible operating overpressure up to 25 bar

AHK-HD high-pressure steam heat recovery boiler

- Flue gas heated boiler for the production of saturated and overheated steam **by using superheaters**
- permissible operating overpressure up to 50 bar

HDK-WR High Pressure Steam Boiler water tube

- **Three-pass design water tube boiler** for the production of saturated and overheated steam **by using superheaters**
- permissible operating overpressure up to 50 bar

HPB High-Pressure Boiler

- Three-pass design natural circulation steam generator
- permissible operating overpressure up to 100 bar

THERMAL OIL BOILER

- » **Heat output: 0,1-16 MW**
- » **Max. operating temperature 400 °C**
- » **Fuel: Oil/Gas/Solid fuels/Electric**

HG Hot Oil-Generator

- Hot oil generator, **three-pass forced circulation boiler with coil** for heating up heat transfer fluid

AHK-HG heat recovery boiler-Marine

- **Flue gas heated generator** for heating up heat transfer fluid

HG-M Hot Oil-Generator Marine

- **Three-pass forced circulation boiler with coil** for heating up heat transfer fluid **in marine design**

EHG Electro-Hot oil-Generator

- Electric powered **forced circulation boiler** with coil for heating up heat transfer fluid

GRUNDFOS
Made in Denmark

Single-stage submersible drainage pump for pumping drain water and grey wastewater

Pressure boosting systems for domestic water supply that ensure optimal water pressure for household applications.

The Grundfos Hydro MPC booster systems are made to the very highest standards they handle even the most difficult boosting jobs with ease and accuracy

Horizontal, Multistage centrifugal pumps

SEG pumps designed for pumping effluent and untreated sewage in small communities

GRUNDFOS FIRE

Motor Driven Fire Pump

When Reliability Matters Trust Grundfos

Thousands of Grundfos Pump installations (UL, ULC or FM approved) deliver superior fire protection to facilities worldwide. Grundfos Pump has been offering complete service, from engineering assistance to in-house fabrication to field start-up. Products are designed from a broad selection of pumps, drives, controls, baseplates and accessories. Pump choices include horizontal, in-line and end suction centrifugal fire pumps as well as vertical turbines.

Danfoss Drives

- for your applications

Quality,

application-
optimized
products, which
target your needs

VLT® AutomationDrive FC 302

VLT® Micro Drive FC 51

A better tomorrow is driven by drives

Danfoss Drives is a world leader in variable speed control of electric motors. We offer you unparalleled competitive edge through quality, application-optimized products and a comprehensive range of product lifecycle services. You can rely on us to share your goals. Striving for the best possible performance in your applications is our focus. We achieve this by providing the innovative products and application know-how required to optimize efficiency, enhance usability, and reduce complexity.

From supplying individual drive components to planning and delivering complete drive systems; our experts are ready to support you all the way.

You will find it easy to do business with us. Online, and locally in more than 50 countries, our experts are never far away, reacting fast when you need them.

You gain the benefit of decades of experience, since 1968. Our low voltage and medium voltage AC drives are compatible with all major motor brands and technologies.

VACON® drives combine innovation and high durability for the sustainable industries of tomorrow.

For long lifetime, top performance, and full-throttle process throughput, equip your demanding process industries and marine applications with VACON® single or system drives.

- Marine and Offshore
- Oil and Gas
- Metals
- Mining and Minerals
- Pulp and Paper
- Energy
- Elevators and Escalators
- Chemical

VLT® drives play a key role in rapid urbanization through an uninterrupted cold chain, fresh food supply, building comfort, clean water and environmental protection.

Outmaneuvering other precision drives, they excel, with remarkable fit, functionality and diverse connectivity.

- Food and Beverage
- Water and Wastewater
- HVAC
- Refrigeration
- Material Handling
- Textile

VLT® | VACON®
Made in Denmark

Products

VLT® Micro Drive FC 51

The smallest AC drives in the VLT® series are particularly suitable for side-by-side mounting with a high integration density. The typical features of Danfoss drives are still retained.

Power range

1 x 200-240 V	0.18-2.2 kW
3 x 200-240 V	0.25-3.7 kW
3 x 380-480 V	0.37-22 kW

VLT® AutomationDrive FC 360

The VLT® AutomationDrive FC 360 is a reliable, energy efficient and user friendly solution placed in a price performance sweet spot. Designed to work in harsh and humid environments, the drive provides reliable operation in industries such as textile, plastic & rubber, metal work, material handling, food & beverage, and building materials. The drive enables precise and efficient motor control of a wide range of industrial applications such as extruders, winders, conveyors, drawing benches, ring frame, texturizing, pumps, and fans.

Power range

3 x 380-400 V	0.37-75 kW
---------------------	------------

VLT® HVAC Basic Drive FC 101

The VLT® HVAC Basic Drive is supplied with built-in functions that reduce initial costs and increase productivity. It is the most compact unit in its class. Integrated DC coils reduce harmonics to an absolute minimum, and the Automatic Energy Optimizer saves 15-25% energy from the second you turn the it on. Achieve the lowest cost of ownership with a premier drive dedicated to ventilation, heating, and refrigeration applications.

Power range

1 x 200-240 V	0.25-45 kW
3 x 380-480 V	0.37-90 kW
3 x 525-600 V	2.2-90 kW

VLT® AQUA Drive FC 202

The VLT® AQUA Drive FC 202 drives and controls all types of pumps. In addition to the widely used centrifugal pumps (quadratic load torque), the VLT® AQUA Drive FC 202 is ideal for displacement pumps or eccentric screw pumps (constant load torque).

Power range

1 x 200-240 V	1.1-22 kW
1 x 380-480 V	7.5-37 kW
3 x 200-240 V	0.25-45 kW
3 x 380-480 V	0.37-1000 kW
3 x 525-600 V	0.75-90 kW
3 x 525-690 V	1.1-1400 kW

VLT® AutomationDrive FC 302

The VLT® AutomationDrive FC 302 is a modular drive designed to comply with all modern automation application requirements with easy configuration and a broad power range.

Power range

3 x 200-240 V	0.25-37 kW
3 x 380-500 V	0.37-1100 kW
3 x 525-600 V	0.75-75 kW
3 x 525-690 V	1.1-1400 kW

Power range - Low harmonic drive

3 x 380-480 V	132-710 kW
---------------------	------------

Power range - 12-pulse drive

3 x 380-500 V	250-1000 kW
3 x 525-690 V	250-1400 kW

VLT® HVAC Drive 102

The ideal choice for fan and pump applications in modern buildings. The drive offers maximum flexibility in installation, bus connections and control intelligence.

Power range

3 x 200-240 V	1.1-45 kW
3 x 380-480 V	1.1-1000 kW
3 x 525-600 V	1.1-90 kW
3 x 525-690 V	1.1-1400 kW

Power range - Low harmonic drive

3 x 380-480 V	132-710 kW
---------------------	------------

Power range - 12-pulse drive

3 x 380-500 V	250-1000 kW
3 x 525-690 V	250-1400 kW

Electronic pressure measurement

Calibration Technology

Level Transmitters

EJXC80A/EJAC80E Diaphragm Seal System (Direct Mount Seal)

- Flange-mounting, compact differential pressure transmitter.
- Direct mounting to a tank.
- Small flange size model available.

Liq

EJXC40A Digital Remote Sensor

- Connecting two pressure sensors, master (high pressure side) and slave (low pressure side) in a remote location, with DRS dedicated communication cable to measure differential pressure.
- Suitable for level measurement of a tall tank. DRS cable length (maximum) : 45 m
- Signal characterization for various tank types.

Liq

Head mount type

- A head mount type conforms to the standard DIN form B head mounting.

Panel mount type

- A panel mount type conforms to the standard DIN rail mounting and supports HART communication protocol.

EJXC80A/EJAC80E Diaphragm Seal System (Remote Mount Seal)

- Ideal for measuring the levels and densities of corrosive and high-temperature fluids.
- Small flange size model available.

Liq

EJAC60E Hygienic Adapter System Fluidless Type Pressure Transmitter

- The hygienic pressure transmitter is designed specifically for the needs of the food and pharmaceutical industry.
- The transmitter design eliminates the use of filling fluid and incorporates a hygienically sealed adapter structure to ensure process integrity.
- Hygienically sealed adapters offer 16 different type of process connections.

Pressure Transmitters

Liq Gas Stm

DPharp EJX Series Differential Pressure and Pressure Transmitters

- Ultra-high performance, the flag-ship model of DPharp.
- High accuracy and fast response.
- Unique features include;
- Multi-sensing (Differential pressure and Static pressure).
- Output signal characterizer.
- Multi-functional indicator with local parameter setting function (optional).
- Alarm output for measured pressure and static pressure (optional).
- High reliability.
- SIL2 certified by TÜV.

Temperature Transmitters

YTA Series Temperature Transmitters

Field mount type

- Built to last: Dual-compartment housing realizes high resistance capability to harsh environments.
- Safety first: SIL2 certified right out of the box - At Yokogawa safety is not an option.
- Excellent long term stability: Industry leading 5 year stability guaranty

Liq Gas Stm

DPharp EJA-E Series Differential Pressure and Pressure Transmitters

- A best-selling pressure transmitter series featuring silicon resonant sensor.
- Fast response, corresponding to various applications.
- Excellent long term stability slashes maintenance cost.
- Unique features include;
- Multi-sensing (Differential pressure and Static pressure).
- Output signal characterizer.
- Multi-functional indicator with local parameter setting function (optional).
- SIL2 capable.
- 1 to 5 V low power output type available.

EJX/EJA Series Differential Pressure Transmitters

- Combined with an orifice, measures liquid, gas, and steam flow rates.
- Available for direct mounting without three-valve manifold.
- Outstanding long-term stability slashes maintenance costs.

Liq Gas Stm

EJX910A

Multivariable Transmitter

- Fully compensated mass flow: all flow factors can be automatically and dynamically calculated to an optimal value.
- 1.0% mass flow rate accuracy over 1:10 flow range.
- Simultaneous dual output of 4 to 20 mA and pulse signals for total flow, flow rate, or alarm status.

Liq Gas Stm

Configuration Tool

FieldMate Versatile Device Management Wizard

- FieldMate is a field work-oriented software program for configuring, daily patrol, troubleshooting, and managing a wide variety of field devices used in plants and laboratories.
- Multi-protocol access support
HART, FOUNDATION™ fieldbus H1, PROFIBUS, BRAIN, ISA100.11a, Modbus
- Support frequently used functions (Zero adjustment, Input loop check support, and Acquisition of device parameters)

CA700/PM100 Pressure Calibrator/ External Pressure Sensor

- A pressure calibrator specifically designed for the differential pressure and pressure transmitters
- Pressure measurement range 200 kPa ~ 70 MPa.
- Basic accuracy: Pressure 0.01% rdg, Current/voltage 0.015% rdg
- "As Found", "As Left" data and error rate (%) can be recorded.

Field Instruments

Flowmeters

ROTAMASS Total Insight Coriolis Mass Flow and Density Meter

- A versatile, multi-sensing flowmeter that measures most flowing fluids
- Vibration-resistant due to counterbalanced dual measurement system
- Robust sensor design with low pressure loss
- High accuracy measurement, Mass flow: 0.1%, Density: 0.005 g/cm³
- Wide temperature range (-196 °C to 350 °C)
- In-line Concentration Measurement, Batching and Viscosity function

Liq Gas

The Total Insight concept provides:

- Six dedicated product lines offering best-suited solutions
- Wizard for easy setup and configuration
- "Event-Management" for pro-active operation
- In-line meter verification with Total Health Check and Tube Health Check
- MicroSD card for easy data transfer
- Worldwide approvals and universal power supply

ADMAG Total Insight AXG and AXW Magnetic Flowmeter

- The ADMAG Total Insight AXG and AXW adopt the "Total Insight" concept and totally support the product life cycle. The functions will increase customer's benefits with reducing total cost of ownership.
- High-quality and highly reliable product based on years of experience and achievement by our proprietary dual frequency excitation method.
- The AXG is ideal for industrial process lines like oil&gas/chemical/pulp&paper/food& beverage/metal&mining applications, and the AXW is for general industrial process lines and water supply/sewage applications.
- The AXG and/or AXW provide four I/O signals, calorie calculation, data logging, NAMUR NE 107, built-in verification, application diagnostics, and data transfer by microSD card.

digitalYEWFLO Vortex Flowmeter

- Spectral signal processing automatically optimizes the output immediately after power-on.
- The maximum size is 400 mm. Various body from cost-effective wafer types to high-pressure flange types (ANSI class 1500 lb) is available.
- Available in high-temperature (up to +450 °C) and cryogenic models (down to -196 °C).
- Built-in temperature sensor in the shedder bar offers the mass flow output or the temperature output.
- Corrosion-resistant type compatible with corrosive fluids is available.
- Robust meter design to withstand steam flow challenges such as water hammer, high temperature process, etc.
- Reduced bore type enable low flow measurement. Available for up to 2 sizes down.

Liq Gas Stm

Multi-variable type

Reduced bore type

Converter

PK200 Current-to-Pneumatic Converter

- Electronic feedback system achieving high reliability and high performance.
- Energy-saving design achieve economy.
- Designed to be replacement-compatible with the former model 5502.
- Easy to operate.....one side access.
